

The reason I initially purchased xmradio was because I travel between the east coast and the midwest frequently to visit family. Radio signals are difficult if not impossible while traveling through certain areas of mountains. I depend on xm radio for entertainment and also for information. Don't limit my choices or take away my right to listen to something which is helpful and for which I pay.

There are so many fronts in this war on free speech that I can hardly keep up with it.

Start working as hard to protect 1st ammendment rights as you are to help the corporations.

Thank you for listening to my comments. Katie Regan
